01 — Brand personality

Natural • Modern • Warm • Friendly • Premium. The identity should feel fresh and welcoming, with a calm matcha-inspired look and clear product photography.

03 — Logo rules

Use the supplied PNG logo as-is. Keep its circular shape and proportions. Do not stretch, redraw, recolor, add effects, or place it on a busy background. Leave clear space around it. For best legibility, place it on

Warm Cream or white.

04 — Design direction

Use soft natural light, warm cream backgrounds, sage/olive accents, restrained gold details, and uncluttered layouts. Prioritize authentic photos of the café’s actual drinks and desserts. Use dark charcoal for important headlines and maintain strong text contrast.

05 — Social media formats

Feed portrait: 1080 × 1350 px | Story/Reel cover: 1080 × 1920 px | Square post: 1080 × 1080 px. Keep key text and the logo away from the extreme edges.

06 — Important AI workflow note

Generate the visual background/product scene with AI, then add the original logo PNG and final Arabic text manually in Canva or Photoshop. Image generators can alter logos and produce incorrect Arabic lettering.
